

## VACANCY

### Maintenance Apprentice

A vacancy has arisen within our Maintenance Department for 2x Maintenance Apprentices.

This is an opportunity to train to a recognised qualification whilst gaining a diverse range of experience in a multinational organization.

The successful candidate will have exposure to the following:

- Fault finding using PLC ladder diagrams and CNC controls.
- Identify repeat problems and assist in the corrective actions to remove the cause.
- Breakdown repair of existing plant, and machinery.
- Working with the Production Team for the installation of new machinery and assisting with machinery moves.
- Production support activities

The successful applicant will be trained up to and including a Level 4 Higher Apprenticeship with an Electrical/Electronic Engineering bias - the exact pathway or framework will be decided upon once the successful applicant is selected based on their experience and existing qualifications.

To apply for this position, it is ESSENTIAL that you have:

- GCSE B or Grade 5 or above in Maths and English OR other relevant qualification/experience
- Enthusiasm for a career in Engineering Maintenance
- Good communication skills
- Logical
- Good team skills
- Excellent problem solving skills

Please apply in writing enclosing an up to date CV to the Kawasaki Human Resources and Training Department by 1.30pm on Friday 3<sup>rd</sup> August 2018.
