

## QUALITY POLICY STATEMENT

### Quality Policy

The management of Kawasaki Precision Machinery (UK) Ltd is dedicated to a policy of ensuring that its products meet the requirements of the customer. In order to achieve this policy, the company subscribes to the following:

- To achieve error free work in all areas.
- To carry out continuous improvement through a commitment to education, training and teamwork
- To maintain quality by prevention of defects.
- To monitor the Quality Management System through the review of company goals and objectives.

The company will stress a positive work environment that will encourage the involvement of all employees through teamwork.

With this policy the company will build a competitive advantage in the global market place and achieve its business objectives.
